In Bhaktapur you will explore Bhaktapur, an important and fascinating World Heritage Site, made up of three large squares filled with shrines, temples and activity; Bhaktapur is the essential Newari city with some of the finest architecture in Nepal. In its heyday (14th-16th centuries) Bhaktapur was the most powerful of the Kathmandu Valley kingdoms and its capital for 300 years. Despite earthquakes and frequent rebuilding, Bhaktapur today retains a medieval feel; its neighborhoods are still caste oriented and centered around the old ponds or tanks (built to store water for drinking, washing and religious ceremonies) and which continue as a social focal point. Local people here are predominantly farmers or engaged in the traditional crafts of pottery, metalwork, art and woodwork which have supported the city since its establishment in the 12th century to service the trade route between Tibet and India and remain active industries. A fascinating place to explore! You will spend about 3 hours here and continue your journey to Panauti.

Panauti was a commercial town in medieval time, but now it is very much at a standstill. With a very well preserved backwater and a fascinating place to explore with interesting temples and impressive Rana mansions which have been restored. There are 03 rivers including Brahmayani, Roshi & Punyabati. This town was derived from the holy river of Punyabati. Here is metal works and agriculture with beautiful rice terrace, where we can see agriculture base culture & lifestyle. Panauti local people celebrate several festival and fairs here. There are stupas, stone art and temples around with beautiful woodcarvings. Panauti offers the beautiful Hindu Temple i.e. Indreshwor Mahadev (12-13 centuries) which has single plinth base, pagoda type with 03 storied, 03 main gates & 06 tundals. The temple dedicated Shiva destroyed god in Hindu pantheon. The festival that is most celebrated is like 12 years Makara Mela,

Swosthani Purnima & Shivaratri. After taking time enough to explore your guide will bring you back to Kathmandu.

King Prithvi Narayan Shah, the founder of modern Nepal, planned and

launched several unification campaigns from here some 260 years ago. A pagoda style building popularly known as seven-story Nuwakot Palace stands as a landmark of Nuwakot. With strategic hilltop viewpoint, it is rarely frequented yet pristine historical hill town offering the opportunity for learning history and culture.

Seven Story Palace in Nuwakot is the center of attraction for the visitors. It was built in 1762 AD on the name of "DurgaRatna". However, it has eventually been renamed and become famous as the Seven Story Palace after fallen of two story in the earthquake of 1934. Strategically placed and impressively built, this palace is of extreme historical importance and is still regarded as a model of architecture. With 5 feet thick walls and towering seven stories above the streets, the palace was built to withstand the strongest of forces.

A testimony to its historical significance is that it was in this Palace that King Rana Bahadur Shah welcomed the British representative, Mr. William Kirkpatrick, in 1793, just after the war between Nepal and China. In addition, here, in 1816 AD, King Gribanyoddha received a letter of credential from Mr. E. Gardner, the first representative of the UK to visit Nepal. The massive quake of 2015 badly hit the palace square locals have initiated campaigns to restore the historic and cultural significance of this landmark. Rangamahar (The Palace of Malla King) and Bhairabi temple are the other attractions. Situated just east of the Seven Story Palace, Rangamahar is made of beautiful oily bricks with fine wooden carvings.

Since Nuwakot was jointly ruled by the Malla kings of the Kathmandu valley, Rangamahar was built for the purpose of a recreation spot for the three kings of the valley. Four story palace is known as Garadghar. It is situated facing the Seven Story palace and is believed that the King Prithvi Narayan Shah built it in 1762 as a Tilingaghar (Store of weapons). Featuring a unique Nepalese architect of Pagoda style, it stands majestically in the town and remains at the center of attraction for the visitors. You can spend enough time in Nuwakot. If it's not too much you also have an opportunity of doing the village walk until the Malika hill 1450 m, which offers the wide view of the land terraces along with the distant mountains. Drinking Water

Staying hydrated is important when undertaking any physical activity and it is more so while you are on a vacation and constantly engaged from one activity to another. We strongly encourage you not to buy bottled water as much as possible on your trip as this contributes to the growing problem of plastic pollution in Nepal. We recommend that you bring a reusable bottle with a wide opening and use a SteriPEN to treat it with. A SteriPEN is a handheld UV water purifier – small, lightweight and battery powered. Or simply refill your water bottle every morning before leaving your hotel.

Weather

The main travel season in Nepal is from mid-September to end-May. During rainy season we do not operate this trip due to obvious reason. Daytime average temperatures will

vary from 15°C to 33°C in the Kathmandu Valley to around 20°C to 35°C in plains of Nepal.

Post Monsoon/autumn: Mid-September to November. This is the most popular travel season in Nepal. Day temperatures in Kathmandu are generally above 20°C.

Winter: December to end February. Despite the colder conditions, this is also an ideal time to travel in Nepal. Skies are usually very clear, especially in December and the mountain views are at their best. Nights will be very cold with temperatures down to minus 20°C but days are often pleasant and sunny. In Kathmandu, maximum daytime temperatures are 19°C.

Pre-monsoon/spring: March to May. Both day and night temperatures will be warmer in general but haze will often build up in the afternoons. It is very hot in the lowlands and temperatures rise to 30°C in Kathmandu. Flowers bloom in this season and this is one of the reasons people chose to trek in spring.

Money

The national currency of Nepal is the Nepalese Rupee (NPR), with a current (Apr 2025) exchange rate of approximately 151 to the Euro and 136 to the US\$. It is illegal to import or export rupees, but foreign currency is not limited, provided it is declared on arrival. Keep your change receipts, as you will need them if you want to change rupees back into hard currency at Kathmandu airport.

ATM Availability

There are ATM machines in Kathmandu and Pokhara. You can exchange cash in Pokhara as well. Please do not rely wholly on ATM machines as many are broken or have run out of money and all have a per day withdrawal limit of approximately €150-175 or US\$ 175-190.

We recommend you bring most of your money for the trek in cash and change it at the airport on arrival. Credit cards are accepted in many of the larger shops and restaurants in Kathmandu.

Extra Expenses & Spending Money

It is illegal to import or export rupees, but foreign currency is not limited, provided it is declared on arrival. We recommend taking your personal spending money in cash (dollars or euros can all be changed easily). Cash can be changed easily at the airport on arrival in Kathmandu or at money changers in the Thamel area of Kathmandu. Please note that travellers cheques can NOT be exchanged in Nepal.

Please allow Rs1000-2000 (€7-14) per day for extra drinks, showers and charging on trek, and for meals not included in Kathmandu. This amount is given as a rough guideline only. If you plan to take a SteriPEN to treat non-boiled water on trek you will spend less than this, whilst if you buy imported snacks and drinks you may spend a few euro extra each day. There are teahouses selling drinks and snacks along the entire length of the trekking route.

Tipping

Tipping is of course entirely at your discretion, but it is part of the culture in Nepal. Tipping can be an awkward affair especially when you are not familiar with the country. Your leader will help with tipping and will provide a list of suggested tips. This will include tips for drivers, hotel porters and other hotel staff, local sightseeing guides, and if trekking will include staff such as guide, assistants and porters.

Based on the above distributions, you should allow approximately Rs10000 - Rs15000 (€71-106) in total for all tips for the tour duration. Please try to give all tips in local currency.

IMPORTANT INFORMATION: On all guided trips although our leaders/guides are well trained to deal with different capabilities, if they have any concerns about someone's ability to safely partake in an activity, or their impact on other people's enjoyment, we authorize them to take necessary action which, in some circumstances, may involve asking someone to miss that activity.
